Griffin of Melbourne, Australia.

When the cigars had been lighted, Chairman Mills said the gathering had been called for the purpose of doing honor to one branch of manly sports and that was base-ball. He spoke of the successful world-circling trip of the boys.

Letters of regret were read from the Governors of New York. New Jersey and Connecticut, as well as from Mayor Graut. The speakers of the evening were then called up. Among them were Daniel Dougherty, Mayor Chapin of Brooking, Mayor Cleveland of Jersey City, A. G. Spaiding of Chicago, A. C. Anson of Chicago, John M. Ward of New York, Mark Twain, Erastus Wiman and Chauncey M. Depew.

cey M. Depew.

MARK TWAIN spoke of the peaceful, beautiful, indolent climate of the Sandwich Islands. When a good man dies there, he but goes to sleep in one heaven to awake in another. "And these boys have played base-ball there," he exclaimed; "base-ball, which is the very symbol, the outward, visible expression of the drive and push and rush and struggle of the raging, tearing, booming nineteenth century. It is like interrupting a funeral with a circus. No alien iand, in all the world, has any deep, strong charm for me but that one. And inless world-wanderers who sit before us here have looked on these things, and with the eyes of the flesh note the unsatisfying vision of the apirit. I envy them that, Yes, and I would envy them somewhat of glories they have achieved in their illustrious march about the mighty circumference of the earth, if it were fair; but no, it was an earned rus. [Laughter,] They have carried the American same to the utionst parts of the earth, and covered it with glory every time. I drink long life to the boys who plowed a new equator around the globa, stealing bases on their bellies."

Chauncey M. Depew, among other things, said: "I have been preparing a speech for the centennial, but it is insignificant in imthe centennial, but it is insignificant in importance to the one which I shall deliver tonight. This is an event which elipses everything. George Washington was a great and good mas, but he never saw baseball games. Madison wrote the Constitution of the United States, and Jefferson gave Democracy its birth, but there is no indication upon their tombstones that they were ever roused by the enthusiasm of a home run. When I was in England last summer Mr. Gladstone said to me: "What is the difference between newspapers in America and those in this country?" The newspapers an England. I replied, 'devote ten celumns to reporting Parilamentary proceedings and half a column to a cricket match, while in America the newspapers give Congressional proceedings a a cricket match, while in America the newspapers give Congressional proceedings a half column and a base-ball game ten columns.' Athletic sperts are the mainstay of civilization. From Charles Dickeus to Max O'Reil the American people has been the butt of ridicule, but our teams were sent abroad to show what Americans really are, and that harmony of mind and body is not neglected by the American people."

West Virginia Bandits Holding a Carnival of Crime. Associated Press. A special from Union-town says: In addition to the terror in-spired throughout Fayette county by the McClellandtown band of outlaws, they are creating greater terror in the adjoining county of Preston in West Virginia. When they were driven from their refuge near Markleysburg, they went across the line into West Virginia, and are now said to be located in a house near Glade Mills, a small hamlet. Reports say there are six of them in the gang now, and that nightly they com-mit some depredation on citizens in the

vicinity.

So great is the excitement over their presence and the robbing and victimizing of the gang that the neighborhood is in despair. Local desperadoes have joined forces with the gang, and they threates all kinds of vengance on any one who interferes with them. The place where they hold forth is near a distillery, and this adds to their recklessness.

hold forth is near a distiliery, and this adds to their recklessness.

Appeals from the people in the neighborhood have been sent to the nearest town of any size, Kingswood, asking for help. An organized effort is being made to capture them, and is under command of West Virginia officers.

The district is far away from telegraphic communication, and is only accessible by a long journey, so that particulars only reach this place in a fragmentary way.

A GHASTLY STORY.

Confession of a Desperado Now in a Kentucky Jail.

Wheeling (W. Va.), April 8.—[By the Associated Press.] Ellison Hatfield, one of the participants in the Hatfield-McCoy fend, now in jall in Kentucky, has confessed to the facts of the murder of the three McCoy brothers, Talbert, Farley and

Randolph.

The Hatfields captured them, led them to a tree and gave them time to say their prayers. John Hatfield then shot Farley dead. Asse Hatfield killed Taibert, and Alexander Mussar killed Randolph. All the others also emptied their weapons into the bodies of the victims.

Then Wall Hatfield made all of the band swear to take the life of the first man who divulged the names of those who were along.

Decision Affecting a Tract Worth

A Decision Affecting a Tract Worth \$2,000,000.

MARQUETTE (Mich.), April 8.—(By the Associated Press.) The Register and Receiver of the Land Office for this district has decided in favor of scrip locations on lands within the indemnity limits of the old Marquette, Houghton and Ontanagon Railroad grant, recently declared forfeited, as against homestead and preëmption settlers, who claimed the lands in dispute by virtue of actual entry thereon as soon as they were thrown open to entry, as against the scrippers, who had previously applied for the lands.

The local officials hold that the applications of the scrippers constitute an appropriation of the lands in dispute, which took effect as soon as they became subject to entry. The finding will be appealed from and the contest transferred to Washington. The decision affects lands on which there is pine estimated to be worth not less than 2,000,000.

The hearing in these cases has occupied the attention of the Berriers and Receiver.

MUNICIPAL MUDDLE.

THE LATE CHICAGO ELECTION

The Courts Asked to Declare It Invalid-Indications That the Application Will Be Successful -Curious Complication.

By Telegraph to The Times.

CHICAGO, April 8.—[By the Associated Press.] Politicians of this city have been astonished by the announcement that it is discovered that the recent municipal election in this city is illegal, and that it is within the power of any citizen to over-throw it. This state of affairs grows out of a decision of the State Supreme Court ren-dered since the election was held. Last November the suburban towns of Brighton Park and Cicero were by vote of their people annexed to Chicago. The village officers of both places, however, contested annexed the territory to the townships of South and West Chicago, but did not operate to make it a part of the city, the power to extend the limits of which rests entirely with the City Council. Therein lies the trouble

with the City Council. Therein lies the trouble.

The law of the State provides that whenever all of a township lies within the limits of a city, a city election shall be held on the first Tuesday after the first Monday in April, and where a township is not all included within a city's limits, the election shall be held on the third Tuesday in April, Under the decision of the Supreme Court ratifying the annexation of Brighton Park and Cicero to the towns of West and South Chicago, the city does not entirely cover the townships, and therefore the municipal election should have been held April 23d.

municipal election should have been held April 23d.

Moreover, the law requires that twenty days' notice of an election shall be given, and as the time is too short between this date and the third Tuesday in April for a legal notice, it seems questionable whether the mistake can be rectified by a new election on that date.

Wide fields of speculation are open as to the probability of reversing the verdict of the people in the recent political landslide. It is claimed that if the present Republican administration is willing to invoke the law, it can hold over and prevent the newly-elected Democrats from taking their seats. It is said that Mayor Roche has consulted the corporation counsel in regard to the matter, but it cannot be learned that any decision was reached.

decision was reached.

This evening a resident of the annexed territory applied to Judge Jamieson for an injunction restraining the election commissioners from counting or declaring the votes cast. The ground taken was that residents of the annexed strip, having no notice of the election, were deprived of their electoral rights, vittating the whole election. The applicant was armed with a recommendation from a master of chancery that an injunction be issued. Judge Jamleson set the matter for hearing at 10 o'clock tomorrow morning.

THE SAMOAN QUESTION.

Interview with Commissioner Kas son-The Real Issue. New York, April 8.—[By the Associated Press.] Ex-Minister Kasson, one of the Samoan Commission, who sails with Commissioners Bates and Phelps on Fri-day for Liverpool, in declining to express an opinion tonight in regard to the stand taken by this Government, said: "We all wish to enter the conference as free as possible from any utterances on the subject. We have considered that the main question which confronts us is a decision upon some

which confronts us is a decision upon some method of protecting the rights of foreigners at Samoa without interfering with native independence. Our general aim is to secure good order at Samoa and maintain the principle of equal rights of the powers interested there."

Mr. Kasson, when asked if he thought the destruction of the naval squadron at Samoa would affect a settlement, said he thought it would. There would probably be more strenuous efforts to reach a settlement so as to render unnecessary the maintenance of an armed force at the islands.

The regular weekly meeting of the City Council was held yesterday, with the full board present. President Frankenfield took the chair promptly at 10 o'clock, and, after the calling of the roll and reading of the minutes, a nessage from Mayor Hazard was laid before the Council, returning without his approval the official bonds of M. D. Johnson, City Treasurer; Len J. Thompson, City License and Tax Col-lector, and Fred Eaton, City Engineer, wing to informalities.

On motion the matter was referred to the City Attorney. Upon that off cial making an explanation, the offi-cials were requested to furnish new

The Auditor's balance sheet was read and referred to the Finance Com-

read and referred to the Finance Com-mittee for approval.

On motion Police Judge Stanton was authorized to deposit all fines col-lected by him since he went into office with the City Treasurer.

The Street Superintendent was au-thorized to lay sidewalks on I. W. Hellman's property at the corner of Second and Fort street according to law.

Chief of Police Burns appeared be-ore the Council and stated that he had received orders from the Council not to employ any more specials. The gentleman stated that, as he understood the law, he was to receive his orders from the Board of Police Commissioners; that the order issued by the Council had handicapped him from the start; that he had now ten men who were unable to do duty, and he was left helpless, not being allowed to appoint men under such circumstances. The Chief notified the Council that today the races commenced and a circus was to visit the city this week; that this morning three burglaries had been reported and that he had but one man to look after the mattef. In closing he asked for some discretionary power to act in such nad received orders from the Council discretionary power to act in such

After some debate the resolution on the subject formerly passed by the Council was rescinded, and the matter was made the special order for 2

o'clock.
On motion, Messrs. Shafer, Bonsall and Brown were appointed as a special committee to look into a contract made with Frick Bros. by the late Council, and report next week. The above is a dispute in regard to pipe laid by the firm.
On motion of Mr. Bonsall the rules regarding printing were supported.

On motion of Mr. Bonsall the rules regarding printing were suspended and an ordinance passed prohibiting any person except a police officer or a person traveling through the city carrying concealed weapons.

The ordinance was also passed making it a misdemeanor to contract for more than eight hours as a day's labor, or the employment of Chinese on any public work. The above met with great applause from the lobby.

The following message was sent in by the Mayor:

A large number of able-boiled men are idle on our streets, owing to their inability to get work, and we should, as far as we can, assist them in obtaining employment. To obtain situations these people have paid to employment agents their last dollar and have failed to obtain employment. Some of these agencies deliberately rob them, and the needy condition of these people generally precludes them from obtaining any rederess whatever. The establishment by the ally precludes them from obtaining any redress whatever. The establishment by the
city of a free public employment agency is,
in my judgment, a public necessity. The
cost of maintaining such an institution
would be small compared with the great
good it would accomplish. There will be
abundant room in the new City Hall to accommodate such a branch of the public
service. I do not know of an office which
is more urgently demanded than the one
herein proposed. Every presaution is taken
by law to protect and give comfort to our
people, but at the time when they nost
need the helping hand of the government
in getting a situation, and when they ask
for employment, having made no provision
whatever, we virtually tell them they must
hunt it up; that the city government does
not concern itself in such matters. I think
in fairness to the unemployed we should
make some provision in their behalf.

Referred to a special committee consisting of Messrs. Summerland, Hamilton and Shafer.

MISCELLANEOUS.

The City Attorney reported the fact that the city had been stopped in the work of opening First street. The matter was referred to the Board of Public Works.

The report of the Finance Committee was read and the several recommendations adopted.

The committee reported adversely upon the recommendations from the Police Commissioners that \$400 be appropriated for a secret-service fund.

The committee also recommended that the telephone now used by the Police Matron be discontinued.

Maj. Bonsall gave notice that hereafter the Board of Public Works would meet at 9:30 o'clock every Friday morning.

morning.

The City Attorney announced that the new charter had not been recorded, and, on motion, he was authorized to attend to the matter immediated.

The Council met promptly at 2 b'clock, with President Frankenfield

o'clock, with President Frankenneld in the chair, and a quorum present.

The Clerk announced that police business had been made the special order for this hour, but a short wait was had to enable the Council to order a hydrant at the corner of Wilmer and Silver streets.

ver streets.

The special order was then taken, and Mr. Bonsall read an ordinance sich had been drawn up by the City ttorney, authorizing the Police Comission to employ special policemen henever required, the number at no me to exceed 10, and on motion of fr. Summerland the rules were susended and a vote taken, when the hair announced that he was in oubt, and the roll was called, which esulted in the suspension of the ules.

enfield remarked that the passage of the ordinance meant 100 men on the police force. Mr. Shafer also spoke against the ordinance, after which a vote was taken, and the ordinance was adopted by a vote of 6 to 8.

ST. PAUL'S HOSPITAL.

The Clerk read the draft of a con

The Clerk read the draft of a contract with the St. Paul Hospital, agreeing to supply two furnished rooms for a receiving hospital at \$40, and agreeing to furnish a nurse for women, and also to furnish meals for a reasonable compensation.

Mr. Bonsall favored the adoption of the contract until the new City Hall could be occupied, when different arrangements could be made.

Mr. Brown objected to the St. Paul scheme, on the ground that it was too far, and Mr. Van Duzen said that the police authorities did not want the hospital there, as, in case a criminal was sent to the hospital it would be necessary to send an officer.

A vote was then taken and the contract was rejected by a vote of 6 to 3.

ORDINANCES.

ORDINANCES. The Clerk read an ordinance against the driving of loose cattle, sheep or hogs through the streets in bands of more than five, without first obtaining the consent of the Chief of Police. On motion the rules were suspended and the ordinance passed by a unanimous

rote.

The Clerk read the ordinance defining the duties of the Park Commission, and fixing the number of employes and their salaries, substantially as asked for by the commission, and heretofore published. The salary of the Superintendent was fixed at \$90 per month, and his assistants \$60, after which the rules were suspended and the ordinance was unanimously adopted.

The report of the

The recommendation adopted.

The recommendation in regard to tapping the sewers was ordered stricken out, and the remainder of the section in regard to storm-water drains was adopted. When the matter of the Pico-street electric railroad came up, Mr. Shafer moved that the 80 days' time given the

company be stricken out. He ex-plained his motion by saying that he had no confidence in the promises of the company or the reported sale of the road he road.

After some talk Col. Howland of the After some talk Col. Howland of the railroad company was asked for his views, and stated that he wanted to get the consent of the Council to use horses until he could get his new apparatus for operating the road by electricity. In answer to questions Col. Howland said that the new system did not entirely dispense with poles, but that the number would be very largely decreased and they would be much smaller than those now in dise. The system that he proposed to introduce is the same that is now being generally introduced. He would give the half-hourly service if such a thing were possible.

After some further debate the report of the board as read was adopted. The report of the Sewer Committee was laid before the Council, and the various recommendations adopted, with the exception of the Rosas-street sewer, which matter was referred back to the committee.

GAS AND LIGHT.

The report of the Gas and Light Committee, recommending that a mast be placed at the corner of Second and Runker Hill avenue, was read, and in the course of the debate, it was stated that the electric light company had power to turnish light for the next five years, and, after debate, the report was referred back to the committee.

The committee also recommended that lights be placed at Third and Main, Jackson and Wilmington, Temple and Beaudry and Sixth and Olive streets, and that the light recommended for the corner of Macy and Alameda be moved to Fort and Sixth streets. All of these lights are single burners. GAS AND LIGHT.

Mr. Hamilton stated that he wa opposed to putting up so many lights, and he moved that that portion of the report be stricken out, which was seconded by Mr. Shafet.

Mr. Bonsall favored the single swinging light system, after which a vote was taken on 'Mr. Hamilton's motion, and it was lost. Mr. Summer-

A communication was received from the library directors, asking that an elevator be placed in the new City Hall, and giving the reasons therefor. On motion of Mr. Bonsall, the matter was referred to the Building Committee, with instructions to report back the cost of such elevator.

The Zanja Committee presented a report, saying that it had made a tour of the various zanjas, and found that various repairs were needed before any water could be sold, and giving a list of such repairs. The report was received and placed on file, and, on motion of Mr. Wirsching, the Zanjero was instructed to at once proceed and put the ditches in propet order.

TO CLOSE THE OLD CEMPERRY.

A communication was received

A communication was received from the Board of Health recommend from the Board of Health recommenting that the City Cemetery be close as soon as practicable. On motion of Mr. Summerland the recommendation was adopted, and the City Attorne was instructed to take the necessar legal steps to carry it out. The recommendation in regard to the Sainse vain street sewer was also read.

The City Attorney said that the reason the ordinance had not been drawn up was because he was waiting for the decision of the Sansen Carry.

DUTIES OF THE SEALER.

The Clerk read the ordinance prescribing the duties of the Sealer of Weights and Measures, and giving the official dimensions of the various measures, as well as giving the standard for the same. All measures and weights must be inspected and sealed at least once in six months, and fixing the penalty for violation of the same. The Clerk was proceeding with the

Health Officer MacGowan addressed the Council in regard to street sprinkling, and presented a report from the inspector, Martin Wetzel, saying he would soon nave to put on an increased number of carts, and recommending the erection of hydrants at various points, besides some changes. No action was taken, and Mr. Van Duzen moved that the Street Superintendent at once take steps to drain the pond at the corner of Griffin avenue and Mission street. The motion was unanimously adopted.

The report of the Health Officer was again taken up, and the drivers were instructed to procure the necessary wrenches for opening the hydrants, and the remainder of the report went to the Committee on Fire and Water. The hydrant at the corner of Downey avenue and Griffin avenue was ordered moved to the corner of Griffin avenue and Patrick street.

A BIG BUNDLE OF PETITIONS. A BIG BUNDLE OF PETITIONS.

Mr. Summerland moved that all petitions be referred to the proper committees without reading, but there was a kick from some of the members who wished to put in the day and kill time, and the Clerk proceeded to wade through an immense bundle of trivial matters of no particular interest. Mr. Summerland, in an outburst of kittenish humor, moved to suspend the rules and permit smoking. After some talk this was voted down, and the dreary reading continued. When the petition against the dog poundein the river bottom was reached, Mr. Van Duzen addressed the Council at length in his most brilliant vein, which resulted in the City Attorney being instructed to at once proceed and abate the same. The other petitions took the same course petitions be referred to the proper once proceed and abate the same. The other petitions took the same course they would have done had they not been read.

Mr. McLain moved that the City Clerk be instructed to prepare a complete register of the various employes of the city, the same to be printed for general use.

The young lady has been very indiscreet, but it is certain that she has not been bad in any sense of the word. The landlady at the Grand Central took her under her wing Saturday night and turned her over to her mother's old friend yes-terday afternoon. Mrs. Peel declares that she does not wish to go hack to that she does not wish to go back to the convent for the reason that there are but few pupils there, and they are all very small children. 2-year-olds, a five-eighths-mile dash. Betting had been in favor of Florella, but Rettie B. won easily, with Wash Bartlett second. Time, 1:05;.

The second race was the Southern Pacific handicap, dash, for all ages. Owing to lack of knowledge of some of the horses, betting was not brisk; in fact, at no time in the day was there any spirited betting, and what there was was confined largely to turfmen, the spectators taking little part. Odds were given, however, in favor of Canny Scot in the second race. Entries were: Canny Scot, John Treat, Douglas, Lillita and G. W.

After several false starts, the "Go!" was finally given, and a very pretty one and a quarter mile dash resulted in Canny Scot coming under the wire in the lead, with G. W. a very close second, and Treat third. Time, 2:29.

The greatest interest had centered noon the third and last race, trotting, 2:20 class, for a purse of \$600. Still betting was light, owing to lack of confidence, though many light pools were sold. What Ho was the favorite, with Jennie B. a second choice. After some preliminary warming up, Jennie B. was assigned to the pole, and the four started. Charlie D., Lena Wilkes, What Ho and Jennie B. were the entries. They were well handled, but several false starts consumed 20 minutes. When at last the "go" was given they were nearly abreast and what bade fair to be a close race was changed by Jennie B. breaking before the first quarter was reached and dropping badly in the rear. The other four kept well together all around and ended the first heat by What Ho passing the wire ahead, very closely pressed by Lena Wilkes, Charlie D. third. Time, 2:294.

Charlie D. won the second heat in 2:29, with What Ho second.

The third resulted the same way in 2:29.

Jennie B. won the fourth in 2:30.

Darkness prevented the fifth heat.

Jennie B. won the fourth in 2:30.

Darkness prevented the fifth heat, which will be run today at 1 p.m. With fair weather there will doubtless be a large attendance. The judges were F. M. Slaughter, J. C. Newton and Dr. Swartz.

SUPERVISORS. The Usual Attention to Roads, School Districts, Etc. The Board of Supervisors in regular session transacted the following busi-

ness yesterday:
A transfer of \$12000 was ordered from the county expense to the court-house and jail fund.

The petition for the organization of a new school district to be known as the Castac school district was granted.

It was ordered that V. J. Rowan make a school-district map for the County Superintendent of Schools.

A petition for the organization of Miguel school district was granted.

The petition of the Los Angeles and Glendale Railroad Company to extend the line to Verdugo Park was granted.

The Bolsas road was declared a public highway.

A reference for investigation to Supervisor Martin was made of the petition for the abandonment of the old Lankershim runch and San Fernando road through the ranch, and

. ARTHUR WEYERMAN

The second trial of Arthur Weyerman, charged with the murder of his brother, Benjamin Weyerman, last August, began yesterday morning, in Department No. 6 of the Superior Court, Judge McKinley presiding. This is a familiar case to the public, through frequent publications of the details of the preliminary examination and subsequent trial, in which the jury disagreed. There is that element of interest in the case, nevertheless, which always attaches to cases in which circumstantial evidence largely enters. It will be remembured that the murdered man, together with his brother Arthur and father, went to a birthday party at Gambrinus Hall on the night of August 22d last. They drank more or less during the evening, and started home shortly after midnight. They went up Main street to Temple, and up that street to Fort. Ben Weyerman was shot at that point, and the report of the shot brought several people there in a few minutes. He died eight days after-

brought several people there in a few minutes. He died eight days afterward. Arthur was arrested and charged with the killing. No one saw the shooting, and Arthur Weyerman alone knows what took place between his brother and himself that night.

The impaneling of the jury occupied all the forenoon and part of the afternoon, the accused being represented by Henry Bleecker and Mr. Stewart, and the prosecution by Deputy District Attorney Donnell. One of the most frequent grounds upon which jurors were excused was that of being opposed on conscientious grounds to returning a verdict of guilty in cases of circumstantial evidence.

The first witness was a compositor of a morning paper, Mr. Phillis. He testified that he was going home the night of the tragedy at lo'clock. When he reached the corner of Temple and Fort streets, he saw two men there. One was sitting on the sidewalk, his feet in the gutter, and the other was standing by him. They were talking in German. He pursued his way, and when he got half across the street he heard one of them say, "G—d d—n you." He stopped when he heard that, but, as the one standing up started away across the street, did not think it anything serious, and walked on. When he had gone about 80 yards, and was near Castelar street, he heard a pistol-shot in the direction from which he had come. Going back, he discovered a man lying on the sidewalk groaning. He was wounded, and exclaimed: "I am shot. Who shot me?" In a few seconds several other men came, among them two officers and two men whom he afterward heard say were the brother and father of the wounded man. An officer unbuttoned his clothes, and it was ascertained that the man had been shot in the abdomen. A hack was sent for and he was taken to his home. Officers Bowler and Church, who were present after the shooting took place, were placed on the stand, and their testimony was as to finding the wounded man and taking him home. There was very little conversation at the time, and nothing was said indicating who did the shooting.

The taking of testimony in the case will be resumed this morning. The theory of the defense will be that the shooting was done by Arthur Weyerman, but that it was accidental; that the two brothers were struggling for the pistol, and in the struggle it went off and Ben was shot.

THE BUNCO SHARPS.

lose and Hood Arraigned for Felony.

Rose and Hood, minus John Doe, the unknown third of the bunco trio, were in Justice Lockwood's court yesterday. They were present to be examined on the second, or felony, charge against them of fraudulently winning at play from Judge Haskins. On account of Messrs. Payton and Grant being engaged in trying the Ramsey case in ether court, Justice Lockw

poned the examination until tonight at 7 o'clock.

The matter of bonds in the case upon which they were held was then taken up. The bond was fixed at \$2000 for each.

up. The bond was fixed at \$2000 for each.

Rose and Webber were accepted as sureties for Hood, and "Poker" Davis and Webber on Rose's bond. The Court announced that Deputy District Attorney Hardesty objected to Rose's bond on the ground that Davis had a homestead entry on some of his property.

That worthy said that it looked to him as if Mr. Hardesty wanted to get Rose in jail, and was showing a great deal of prejudice.

The Court replied that Mr. Hardesty was simply doing his duty, and he himself did not think the bond sufficient. The matter was finally settled by the Court allowing the bond to stand until this morning, when additional surety must be procured.

MEDICAL EXAMINATION.

Slaughter of Innocents in the New Police Force. Health Officer MacGowan and Police Surgeen Morrison have finished the medical examination of the members of medical examination of the members of the new police force, and transmitted their report to the commissioners. Of the 100 men examined 48 were passed as first-class, 31 as good, 9 fair, with exceptions, and 12 were rejected. The commissioners put in a portion of the day yesterday in going through the list, but decline to give out any information in advance of the regular meeting on Wednesday afternoon, when the permanent appointments will be made and the vacancies filled. Just how much of a change will be made cannot even be approximated at this time. There have been several quiet removals or resignations since the force was appointed, and there will probably be others. It was stated last night that it was thought that between 20 and 25 would be changed.

Resolution favoring the adoption of the new charter for the government of our city. A year ago I favored the adoption of the new charter for the government of our city. A year ago I favored the adoption of the one we were then governed by. I have had no good reason to change my opinion since, and, while sufficient time has not elapsed since it has become effective to form a final judgment upon its merits, yet I am satisfied that many needed provisions for the government and improvement of the city will soon be tailen advantage of, and that within the next year, should the Supreme Court decide that its approval by the Legislature was regular, the wisdom of its adoption will be proved beyond a doubt.

Resolution in relation to city sewerge, favoring an outfall to the sea. The question of disposing of the city sewage is perinaps the most important one to come before the people from now until the accomplishment of a system commensurate with the demands of our growing city is obtained. A number of plans have been examined and been reported upon, pro and con, but I feel in common with the majority of the members of this Board, as well as the inhabitants of this old, that the surest and best way is to build an outfall sewer to the soa. The undertaking is large, but it has many addentages that other systems and the continuents of the out commensurate.

motion to adjourn. Before it could be moved to adjourn, Mr. Shankland on the part of the board presented him with an elegant gold watch, the intrinsic value of which is \$750. It has a sli the modern improvements, and is a souvenir which cannot but be prized by the recipient. The short speech of presentation was in excellent good taste, and the speaker referred handsomely to the long and honorable services of Mr. Germain as president of the Board of Trade. His reply to the presentation was brief, and it was evident that he was somewhat overcome by the occasion. He assured the members that in retiring from the presidency he did not lose interest in the organization, and had only to be called upon to respond in any way he could to further its interests. The meeting then adjourned.

WOULD-BE ARISTOCRATS.

Lots of fun is now being poked at the New York "Four Hundred," who esteem themselves as a triffe better than any other citizens of the United Such fun is healthy, as it is aimed at an evil which should be discouraged.

The bill of Mr. Sullivan of the New York Legislature to incorporate, define and protect the rights of the nous Four Hundred is very rich. Mr. Sullivan entitles his bill: act to incorporate and define the rights, duties, and powers of the élite of New York city." Mr. Sullivan pronounces this "eletay." It is proposed that a committee be appointed reduce the number and scrutinize the character and fortunes of applicants for vacancies. A vacancy may be created by the death, withdrawal or permanent incarceration of any of the members. Confinement in an asylum, where the patient is certified to by several doctors as beyond recovery, is equivalent to a life sentence in prison. Mr. Sullivan has not made up his mind as to how ab-sence in Canada should affect the standing of a member of the Four Hun-dred. In addition to these regulations Mr. Sullivan says that he will try to derive some revenue from this body. All the members are rich and can afford to pay for having their status recognized by the State, and for the stamp of wealth and ancestry that membership in the Four Hundred

would confer. It is proposed that all vacancies in the body shall be filled by competitive bidding.

Mr. Sullivan's proposition is, in fact, nothing less than the establishment of an American aristocracy. Of course it is a joke, but there is no doubt that many of these exclusives would be glad to see some such line of demarcation established between themselves and the vulgar herd. erners now ape the manners of European aristocrats in every possible manner. There is, however, little chance that their desires will be gratiied at present. We have not yet got quite far the great, healthy, breezy West exists in its present shape the Four Hundred will cut but a very small figure in the sixty-five millions of the United

THE SENATE'S BLUNDER.

There is a remarkable unanimity of entiment on the part of all American ournals, regardless of political complexion, in their comments on the action of the Senate in the Halstead ease. With scarcely an exception, they condemn in unmeasured terms this Senatorial faux pas. Among re-cent utterances of this description is the following from that conservative and careful journal, the Washington

mas. Harrison's recent illness, attributed to the unsanitary condition of the White House, has revived public interest in the project of providing separate quarters for the President's official and domestic uses. The business department has steadily encroached for years upon the domestic of the executive mansion, and still complaint is made of the insufficient room for the clerical force required there.

Germany is just now agitated over a new penal code for journalists, which the obedient Bundesrath has formulated, in accordance with the wishes of the Emperor, who is known to hate newspapers. When an organ like the Cologne Gazette speaks of the proproposed legislation as "putting a frightful weapon into the hands of the Government for suppressing freedom of speech and silencing opposition," it may be readily believed that the bill is pretty bad. It is said to be the worst measure that has been almed against the liberty of the pressure and the proposed against the liberty of the pressure and suppressing free the worst measure that has been almed against the liberty of the pressure and suppressing free the worst measure that has been almed against the liberty of the pressure and suppressing free the worst measure that has been almed against the liberty of the pressure and suppressing free the worst measure that has been almed against the liberty of the pressure and careful journal, the Washington Star:

Those who were moved by the worldly unwisdom. They have simply given Mr. Haistead the means of making up an issue on which he is certain to enlist a very large public sympathy. Their action will give immense impetus to the growing feeling that the Senate is becoming rapidly de-Americanized. New point will be given to the bitter tone of public comment upon the manner in which the upper chamber of Congress has been steadily filling up with the men whose chief claim to distinction rests on the big fortunes they have accumulated, or the skill been steadily filling up with the men whose chief claim to distinction rests on the bir fortunes they have accumulated, or the skill with which they have contrived to twist the technicalities of the law to suit the service of the powerful corporations that have employed them as attorneys. This public sentiment has been volced in the application to the Senate of the title of "the millionaire club," and that body has not done a particularly wise thing in affording Mr. Haistead an opportunity to show to the country the aptness of the name, and the significance of the moral to be drawn from it.

George Washington wore a No. 11 dress shoe on state occasions, and a No. 13 boot for every day service and comfort. He was "built according." That is about the size of a foot which needs to be put down-solidly on some of the Washington Centennial snobbery nonsense.

few concerted numbers there is nothing at a first hearing that stands out strikingly, witn, perhaps, the the exception of the solo for "Barry" in the first set and the song for the heroine, "Violet." which returns with its delicate pianissimo at the close of the last act.

Mr. Spenser is to be congratulated upon his company. In Mesers, Libby and Wilson he has two strong, fine baritone voices, differing in quality but equally pleasing, while in R. E. Graham ("Gen. Knickerbocker") he possesses the comfortable combination of a pleasing comedian with the reliable voice, which so often is lacking.

Catharine Lingard as "Violet" is so pretty, so graceful, and so young that one must be pleased; the little lady, however, has some striking faults of method, and her really sweet and powerful voice becomes unpleasantly flat throughout the middle register.

The Japanese scene, though written before The Mikado, does not suffer by comparison; and there is just enough of it, gorgeously costumed and illuminated as it is.

A GOOD STORY TELLER. MONROVIA, April 7.—[Correspondence of The Times.] Mamie Blandford arrived here Friday evening ence of The Times.] Mamie Blandford arrived here Friday evening. April 5th, on the train leaving Los Angeles at 4 p.m., claiming to have come from Pasadena. She went to the residence of W. L. Sacket and asked to remain over night; said she was an orphan and was trying to get to San Diego; wanted to get work until she could earn money to pay her expenses there. She was sent to the Windsor Hotel to find work. She arrived at the hotel about dark and said she was an orphan and wanted work. The landlady told her to remain there during the night, and she would see what could be done in the morning. Upon being questioned further Mamie said she had come to the country with a lady from Louisville, Ky., last September, and that the lady had gone back to Louisville and left her with another family living in Pasadena, and that they had gone north and ieft her to find her own place, and she wanted to get to San Bernardino to a Mr. Miller's, who was working in the car shops at that place, and that Mr. Miller had known her in Kentucky and would help her to get a place. She wanted to earn money enough to go to Louisville, Ky. The hotel people told her to remain with them until they could hear from Mr. Miller, and that they would then help her to get to his place. They also thought it best to detain her to keep her from falling into bad hands and await developments.

Attempt to Shoulder the Crime on Somebody Else. SHT The Ramsey rape case occupied the lay in Judge Cheney's department of

the Superior Court yesterday. The greater part of the forenoon and afternoon was taken up with the examination of Paul Pushman. Although he
is a witness for the defense he was put
through a rigid and long examination
by Mr. Payton. The tendency of
his questions were directly to
the point of showing, if possible,
that Pushman, who was cook at Ramsey's place in San Pedro, and spent
Christmas with the Browns in East
Los Angeles, was the real culprit instead of Ramsey. That he was suffering from a disease at the time, and
that the Mary Walters, the little victim of some one's flendishness, was his
victim instead of that of the accused.
Pushman's manner on the witnessstand was bad. He is an insignificant
looking fellow, and had a furtive look
in his eyes. He denied that he ever

and anything to do in an improper way with the little girl, and was not shaken in his denials.

It was shown by letters which Brown, the step-father of the girl, wrote to Ramsey at San Pedro, that he demanded money from the latter. The letters were written shortly after the discovery by the mother of her little daughter's condition.

The testimony for the defense was closed at the time of adjournment, and argument by counsel will be made this morning.

The counsel for defense have been making a vigorous fight for Ramsey, but it looks very much as if they had not succeeded in overthrowing the clear and straightforward story of the little girl.

Miss Estella Kenyon of Minneapolis, who has been visiting the family of Thomas G. Barnard, \$25 South Hill street, wished to come down town yesterday morning to do some shopping, and Mr. Barnard ordered his coachman to drive the young lady down. On their return the horses became frightened when passing the corner of Hill and Sixth streets, and started off at a pretty brisk rate. The driver is a new man and could not control the horses, but he managed to keep them in the middle of the street, and told Miss Kenyon to keep her seat and not jump. The young lady became greatly frightened, and when the team passed Tenth street, where they are in the habit of turning in, they slowed up and the driver got control of them to a certain extent, but when they reached Eleventh street Miss Kenyon thought she saw a chance to leap from the carriage, and although the driver did all in his power to keep her quiet, she threw herself headlong from the vehicle, and lit on her head. The horses ran about 200 yards further on, and were brought to a standar still, when the driver returned and carried the injured girl to Mr. Barnard's residence, Drs. piers and docks at Santa Monica for general use.

The committee from Santa Monica reported that their people have already raised \$20,000 toward the enterprise, and as soon as they have secured \$30,000 they will be ready to go to work. Senator Jones, Col. Baker and other large capitalists have not yet subscribed to the fund, but the committee is confident that they will come down handsomely as soon as they are visited. The citizens of Santa Monica are confident that they have the best harbor south of San Francisco, and they have made up their minds to walk away with San Pedro in a very short time.

Tomorrow morning at 10 o'clock a joint committee from the Chamber of Commerce and the Board of Trade will visit Santa Monica by way of the foothill route, for the phipose of inspecting the proposed harbor. They will return in time to make a report at the regular monthly meeting of the chamber, which will be held at 3 o'clock p.m.

All the members of the chamber and Board of Trade, and any other citizens who can get away, are invited to accompany the committee.

One of the speakers said that he is convinced that the project can be made to work, for the reason that the wind is never very heavy at Santa Monica.

They propose to build about two thousand feet of dock. The Committee on Commerce decided late last night to go down with the committee this morning.

of the English navy. Six of those vessels took part in the maneuvers.

Concerning them the committee says: "It is reported universally that the armament is too heavy, hence the vessels are crank; that weights on the forecastle are too great for the forecastle, itself not strong enough for the weight it has to bear. Of the Raccon, the only vessel of that class which appears to have experienced anything like a heavy sea, it is reported that while going 10 or 12 knots an hour against a moderate swell, a sea was taken on board which carried away everything movable on the forecastle, broke in the forehatch, which was battened down, tore away the iron stanchions supporting the forecastle, and bent the beams down three inches.

"The committee is of the opinion that much of this weight should be reduced, and suggests that it should be stowed further aft, and the spare anchor removed to a position near the mainmast; that the two sixinch guns on the forecastle be replaced by five-inch guns. It submits also that to sub-

out is, in view of the crank nature of these vessels, worthy of the most serious consideration."

Admiral Sir Arthur Hood, in observations on the report of the committee, says of the Archer class: "I quite concur in the view that these vesses are too heavily weighted forward and should have preferred the substitution of five-inch guns for six-inch, one psiot-house instead of two, and anchors, especially, the sheet anchors, stowed further att."

These criticisms bear out the argumenta advanced by some of our naval officials at the time of the construction of our gunbosts.

IMPOBTANT CALIFORNIA CASES.

Argument was begun today in three important California cases, entitled the United States vs. John D. Hall, George H. United States vs. John D. Hall, George H. Perrin et al. and M. F. Reilly respectively. Hall in 1885 made a contract with the United States Surveyor General of California to survey public lands, and it is charged that he did not survey them at all, but platted the lands in his office without ever making a survey and returned the plans with fictitious field notes to the Surveyor General, accompanied by an affidavit stating that he had done the work as required by the contract. It is averred that Perrin and Reilly were also guilty of making false affidavits, and Perrin and others are in addition charged with conspiracy to defraud the Government. Defendants were all indicted for forgery. They took exceptions to the indictment, contending among other things that the offense alleged was not forgery, as

of California, and the matter comes here for determination by the Supreme Court. The cases are of considerable interest and it is understood that a number of civil suits depend upon the determination of these criminal cases. Solicitor General Jonks opened the argument for the United States, and was followed by Hon. Frank Hurd, in behalf of the defendants. Senator Stewart of Nevada is also counsel for the defense.

If Firesho, April 8.—In today's election no tickets were placed in the field by any party. The election was for an assessor, treasurer, recerder and marshal, three members of the Board of Education and one member of the Board of Trustees. Every candidate got out his own ticket. Over 1000 votes were cast and it will be morning before the full results are known. A hard fight was made for the office of Treasurer in which W. H. McKenzie was nuccessful. J. H. to Germany. If Mr. Halstead himself ithinks so, many good people can be found to disagree with him; indeed, the public might have been satisfied had some other good Republican been named for the place, and Mr. Halstead been mentioned at all. firmation were not aware of his candidacy until the President sent in his name.

There is no fear that the President will nominate a Democrat for the place in any event, so that it is not a question between Mr. Halstead and a man of another party; it is a question of choice between Republicans; and party discipline has never run so high in this country (unless among Boss Buckley's lambs) as to prevent a man from voting for any one he pleased to in his own party. It is sincerely to be hoped that no such rule will obtain a foothold in the Senate of the United States. There, above alt other places, should be independence of thought and action. Surely, Mr. Evarts, or Mr. Ingalls, was at liberty to vote for or against the confirmation of Mr. Halstead's confirmation or rejection happened to be the subject of it. There was nothing sacred or privileged about him more than about any other candidate for suffrage. The Senate is as much a part of the appointment must be made "by and with the advice and consent of the Senate."

A Boycott.

A boycotting circular has been issued by the National Bakers' Union No., 45 of Los Angeles against the Original Coffee House, No. 11 West Firststreet, Feldshaw & Hagar proprietors. The object of the boycott is because they have patronized Brown's Bakery No. 38 North Main street. It is a renewal of the old fight against Brown which has been going on fiffully for two years past. The circular has some outlandiah cuts on it representing Brown's Bakery and Peck & McCoy's Undertaking establishment in close proximity.

Three-fourths of our people are troubled with dyspepsia or liver complaint in some form or other, which by nature of the disease has a depressing influence on the mind or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick headache, soldity of the stomach or any derangement of the stomach or inver (upon which the whole action of our system depends) are speedily and effectually overcome by the use of Green's August Flower. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits (over a million and a half bottles sold last year). So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the saugust Flower? Three doses will prove its worth. It is sold by all druggists and general desires in the world.

The Times. The Times.

Now Ready, and for sale by Carriers, Newsboys, News Agents, and at the Counter.

ANNUAL TRADE NUMBER,

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and in teresting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and country; a thorough exposition of our astural resources—mineral, regetable, commercial and climatic, a review of the rise ? I progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully compiled exposition of the varied inducements which Southern California offers to the health-secker, the home-secker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few centra and the expenditure of a few minutes' time in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at head. For a dollar you can supply ten families in the frozen East with information that may lead them? I join the army of pligrims to Southern California, to their own and this country sadvantage. Thus, pletter viewed from the standpoint of friendship or self-interes 1. vs. Ji be seen that no better use can be made of a dollar than by purchasing the rewith ten copies of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure centred the country was for the same amount of money.

Can Be Negotiated - Plans New Buildings.

The Board of Education met in the Council chamber last night, with the full board present.

The application of William Gardner to be appointed carpenter for the department was placed on file.

A communication from Principal Clarke of the High School in relation to the admittance of scholars to the university was referred to the Classification Committee.

Applications for positions as teachers were received from Lilian Bowers, Sophia Ayres, J. N. Hughes, Mary A. Bailey, Edith N. Joy, Eleanor Joy, Anne Stewart and Frank Stewart, and referred to the Committee on Teachers.

The special committee on building reported that bankers agree that 6 per cent. bonds can be negotiated. They also reported that at the end of the school year there will be \$30,000 available for building purposes without the

asio reported that at the end of the school year there will be \$30,000 available for building purposes without the bonds.

On motion, it was resolved to make the following additions to the present school buildings: Four rooms at the Amelia-street house, four at Castelar, two at Pearl, four at Breed, four at Railroad, four at Temple, two at Pine and two at San Pedro.

Mr. Whaling had kept quiet up to this point, when he broke out in one of his characteristic speeches, and continued until he was called to order.

Mr. Pomeroy stated that the plans were already drawn for some of the buildings, when Mr. Gosper inquired about the probable cost of the buildings. Mr. Ellis moved to continue the committee, but the report was finally received and filed, and the matter dropped.

Mr. Woodbury presented the report of the Committee on Rules and Regulations, and moved its adoption.

Mr. Whaling again made a very vigorous kick, especially against the rule limiting all speeches to three minutes, but the report was adopted with but one dissenting vote—Whaling.

The Committee on Supplies recommended that 50 desks be purchased, and were instructed to secure the same. They were also instructed to have the plumbing at the Sand and Castelar-street schoolhouses put in order at a cost of \$90.

The Committee on Credentials and Qualifications recommended the following as substitute teachers: Ella A. Clarke, L. J. Kendall, E.G. Strart, W. Glick, Mrs. Huber and Mrs. E. F. O'Donnell.

Lucy M. Grant was granted a leave of absence and Miss M. L. Hutchison

Glick, Mrs. Huber and Mrs. E. F. O'Donnell.
Lucy M. Grant was granted a leave of absence and Miss M. L. Hutchison appointed in her place.

It was stated that Miss Scott, principal of the Eighth-street school, had returned, and it was recommended that she resume her place. It was also recommended that Mrs. Olmsted and Miss Price be retained in the school. Adopted.

The Committee on Buildings reported that a bid of \$150 had been received for the old Montgomery school, and it was authorized to accept the same, Mr. Whaling's protest to the contrary notwithstanding.

The Superintendent presented his monthly report, showing a total attendance. New pupils enrolled, 172.

The Committee on Printing was instructed to have the rules printed, after which the board adjourned to Monday night next.

The regular meeting of the board will be held hereafter on the first and third Mondays of the month.

BURLINGHAM (N.Y.), May 31, 1886, G.G. Green—DEAR SIR: I am frequently troubled with severe colds, and the only remedy that will relieve me of them is your remedy that will relieve me of them is your remedy that will relieve me of them is your remedy that will relieve me of them is your resorter's German Syrup. I have used it for more than twelve years. It is a constant household companion with me. Our merchant here procured it first at my solicitation, and says he has sold a great many bottles. It is a very popular remedy in this section. Every person who has used it speaks in the lighest terms of its merits. I do not know of a single case it has not cured. I first used it in Vermont, where I lived before coming here. I advise every one to use it, as it is certainly the best cough medicine I have ever known. I have tried nearly all of them at different times. Yours respectfully. Moses Graxy.

John Tierney was arrested by Officer
Maguire yesterday afternoon between
5 and 6 o'clock, on a warrant charging
him with battery on one John Wodell. The warrant has been out some time, but the officers were unable to find Tierney until yesterday. He was locked up in default of \$100 bail.

Last night a man complained at the police station that a young man was inveigling his 16-year-old daughter out at nights, and wanting to know if he could not be arrested. He was told to swear out a warrant against the young man, when he left, saying he would take the matter under advisement.

George Wieland, Tom Leonard and Ed Williams, three tough citizens, were picked up by Officer Meyers on San Fernando street early yesterday morning. They were locked up, charged with vagrancy, and when they came before Justice Stanton were given little reminders in the shape of 80 days each.

Marriage licenses were issued yesterday as follows: E. M. Nold. aged 25, and Hattie K. Smith, aged 23; Henry Fitschen, aged 32, and Hannah Funk, aged 22; Aime Gavillot, aged 33, and Julie Sandoz, aged 26; Joseph Fulton, aged 30, and Elsie Nichols, aged 24; William L. Last evening about 7:30 o'clock a telephone message was received at the police station, saying that there was a disturbance at the corner of Spring and Third streets, and asking that an officer be sent down at once. The disturbance proved to be the gathering of a big crowd, attracted by a female evangelist, who insisted on preaching on the sidewalk. The crowd was disturbed to the sidewalk. on the sidewalk. The crowd was dis-persed and the officers returned to the station, no arrests being made.

WHY BE AN OYSTER?

We hate eved to think that we have store keepers among us who are oysters—yes, cysters—even dumb as oysters; for no same store keeper of the least thinking capacity would act, if sensible, so like an oyster. He never gets out of his shell, but reads that we are 'to real' so extra grade of outing cloch at lice, and it is a strike lower, which, if the price were cut in two, would then be high. Mr Oyster, had you been before our counter and beard the comments by customers on your very "progressive" mode of doing business, you would have been flattered. Pie on such apist methods! Come out in broad daylight. Den't hide in your shell and wait for some one to make a meve. If you haven't the thinking capacity, why then it's quite different. But yot, if you like that kind of warfare, count us in. We will give you another rub, and if we do, you'll find even more trade leave you than before. Don't be an oyster; don't be dumb.

Novelty Prints, 6%c a Yard.

Mr Oyster, by you spain, and knock you silily Ours is a nandsome line of novelty prints at 6%c, and every one has been inquiring for them. You will find the handsomest line ever displayed.
